This is an introductory 8-hour performance level direct delivery course designed to improve incident management and integration of law enforcement, fire and EMS responders for active shooter events. This course provides a model framework for use by law enforcement, fire and EMS to manage active shooter event response to improve time to threat neutralization, medical intervention, and survivability of casualties.

Outline:

ASIM Framework:
National Incident Management Systems
Tactical Emergency Casualty Care
Tabletop Exercises

ASIM Course Structure:
Standard Response Protocol
Active Shooter Incident Management
Standard Reunification Method
Simulated Exercises
