The focus of this seminar is to provide law enforcement personnel with specialized interview and interrogation training that will significantly help develop the knowledge and skill level needed today. This training will help attendees effectively and professionally conduct interviews and interrogations when handling today's most experienced criminals from street-level criminal entities to high-level and complex terrorist groups. Each specific module has been designed for every participant to focus on self-evaluation and address their own strong and weak points as they prepare to become professional interviewers in today's demanding times.

- Learn how to avoiding false confessions or the perception of unethical practices.
- Understand successful approaches to conducting the more difficult interview and interrogations of today.
- Learn different ways to professionally and successfully provide Miranda to gain compliance.
- Understanding the power of the interviewer's own personality and how to use it.

- Successful Preparation before every interview.
